

Summer Research Award Policy

Effective 12-2015

Beginning summer 2016, research awards will be provided to tenured and tenure-track faculty who publish in journals on the CBA Elite Journal List. Awards will be provided for publications dated the prior calendar year, beginning in 2015 and thereafter, for a total of three summers in the amount of \$25,000 each summer. The awards are subject to the following conditions:

1. Faculty who have summer funding commitments by contract (e.g., newly hired assistant professors) are not eligible for these awards.
2. Full professors with administrative summer stipends will receive \$25,000 in place of their administrative stipends for publications on the journal list.
3. Faculty with less than full rank will receive \$25,000 in addition to their administrative stipend.
4. Awards of \$20,000 and \$15,000 will be discontinued; however, anyone to whom a three-year commitment was made in 2013 and 2014 (that will expire summer 2016 or 2017, respectively) will receive the remainder of the commitment made to them at whatever level was awarded (\$25,000, \$20,000 or \$15,000).
5. Continuance of this policy is contingent upon available funding and/or policy changes.
