

Registration Closes on November 27

The last CPRDC information session focuses on the available demographic data sets.

Researchers interested in learning about opportunities to use restricted federal data sets in the Central Plains Research Data Center (CPRDC) located at UNL can register for this final information session.

Event Details

Date: **November 28**

Topic: **Introduction to CPRDC with Focus on Demographic Data Sets Available**

Location: **Howard L. Hawks Hall, Room 310**

This last session will take place between 3-4 p.m. (Central Time), in Howard L. Hawks Hall. Physical space is limited to 12 attendees but you can also register to receive passcode for the online meeting room. **Registration** is required for online and in-person attendance.

Some of the data sets are available on the CPRDC website: <https://go.unl.edu/eygg>.

For health data sets and proposal development information check out the NCHS RDC web page: <https://www.cdc.gov/rdc/index.htm>.

If you choose to join this session remotely, seminar link and room password will be sent to the email you provide after the registration is complete. For questions, please contact Dr. Anderson at CPRDC@unl.edu.

The Central Plains Research Data Center (CPRDC) is a special research facility at the University of Nebraska-Lincoln that is operated in partnership with the U.S. Census Bureau to provide researchers with approved projects access to restricted-use federal data. Data are available from a number of federal agencies, including the Census Bureau, the National Center for Health Statistics, the Internal Revenue Service, the Bureau of Labor Statistics, and other agencies. Restricted access data sets are typically more detailed and provide finer geographic coverage than public use data sets. A Census administrator is on site to assist researchers in the development of proposals, to facilitate security clearances, and to assist in implementation of approved research projects. The purpose of the CPRDC is to enhance academic research, research infrastructure, and the recruitment of research oriented faculty and graduate students. The CPRDC is supported by a consortium of university entities including the University of Nebraska-Lincoln, the University of Nebraska Medical Center, Iowa State University, the University of Iowa, and the University of South Dakota.
