

## *Our Ethnic Ties - A Nebraska Calendar of Cultural Events*

**OVERVIEW:** The purpose of this lesson is to illuminate the historical and cultural ties between Nebraska and other regions, which influence the ethnic character of communities throughout the state.

### **ECONOMIC CONCEPTS:**

1. economic resources
2. local economy

**OBJECTIVE:** The students will be able to:

1. collect data on cities and towns that hold ethnic festivals.
2. discover the historical roots of these festivals and the impact on the local economy.
3. draw conclusions about the relationship between people in Nebraska and various ethnic or cultural groups throughout the world.

**NEBRASKA STANDARDS:** 8.3.5, 12.3.13

### **MATERIALS:**

1. Information on the state of Nebraska or your immediate community is available from the tourist office of the State Department of Commerce or local Chamber of Commerce.
2. Information on historical sites is available in travel guides and local travel agencies, visitor centers, and local historical societies.
3. Nebraska Calendar of Cultural Events, Student Handout

### **PROCEDURE:**

1. Have students or groups collect data on cities in Nebraska that celebrate festivals based on the ethnic origins of their citizens, past and present. Also have students describe the impact of these festivals on the local economy. For example, visitors may stay in the city therefore supporting the local food and lodging industries.

Sources to utilize include local Chambers of Commerce, visitor centers, libraries and local historical societies. Much is available on the Internet including <http://visitnebraska.gov>. To save some research time, the teacher may gather the information, brochures, posters, etc. ahead of time.

2. Students can present their data to the class. Suggestions include:
  - Make a bulletin board display on the "parts of the world" that can be visited without leaving Nebraska.
  - Make a poster or bulletin board depicting all of the local businesses impacted by these festivals.
  - Report or demonstrate to the class crafts, customs, or styles of architecture from other parts of the world that can be found in cities in Nebraska.
  - As a class project, prepare a travel guide on "How to See the World Without Leaving Nebraska." This could be as simple or complicated as the class time and interest allows. If possible, have the class visit one of the places in their travel guides.
  - Make a large map and indicate with appropriate pictures where the national or ethnic festivals are located in Nebraska. Students in small groups (two or three) could be responsible for one picture.
  - Present a report on some famous people from the groups identified that settled in Nebraska. Indicate the contributions these people have made.
  
3. Any of these activities could be followed with some of the following questions for class discussion.
  - Based on our information, from what parts of the world have people come to our state?
  - People from what countries tended to settle in which parts of our state?
  - What visible influences have these people had on the areas they settled?
  - What impact do these cultural events have on the local economy?

# Nebraska Calendar of Cultural Events
