

CPRDC Information Sessions Continues

Researchers interested in learning about opportunities to use restricted federal data sets in the Central Plains Research Data Center (CPRDC) located at UNL are invited to attend an information session this fall semester.

John Anderson, executive director of CPRDC, will provide an overview of data sets available and how to get involved in using the Center. Michael Zweifel, census administrator, will also be present to discuss specifics of gaining access to the data center.

Upcoming Sessions:

Date: **October 31**

Topic: **Introduction to CPRDC with Focus on Health Data Sets Available**

Location: Howard L. Hawks Hall, Room 310

Date: **November 28**

Topic: **Introduction to CPRDC with Focus on Demographic Data Sets Available**

Location: Howard L. Hawks Hall, Room 310

Information sessions will take place between 3-4 p.m. (Central Time), with specific data emphases as listed. **Registration** is required; physical space is limited to 12 attendees but you can also register for joining the session online via Zoom.

Some of the data sets are available on the CPRDC website: <https://go.unl.edu/eygg>.

For health data sets and proposal development information check out the NCHS RDC web page: <https://www.cdc.gov/rdc/index.htm>.

If you choose to join this session remotely, seminar link and room password will be sent to the email you provide after the registration is complete. For questions, please contact Dr. Anderson at CPRDC@unl.edu.

Presentations for Researchers

We are available to make presentations to groups of researchers at any of our consortium partner institutions. Presentations can be tailored to specific discipline areas.

Requests for presentations can be sent to John Anderson via email, janderson4@unl.edu, or phone, 402-472-1190.

The Central Plains Research Data Center (CPRDC) is a special research facility at the University of Nebraska-Lincoln that is operated in partnership with the U.S. Census Bureau to provide researchers with approved projects access to restricted-use federal data. Data are available from a number of federal agencies, including the Census Bureau, the National Center for Health Statistics, the Internal Revenue Service, the Bureau of Labor Statistics, and other agencies. Restricted access data sets are typically more detailed and provide finer geographic coverage than public use data sets. A Census administrator is on site to assist researchers in the development of proposals, to facilitate security clearances, and to assist in implementation of approved research projects. The purpose of the CPRDC is to enhance academic research, research infrastructure, and the recruitment of research oriented faculty and graduate students. The CPRDC is supported by a consortium of university entities including the University of Nebraska-Lincoln, the University of Nebraska Medical Center, Iowa State University, the University of Iowa, and the University of South Dakota.
